

I think I know the intent of this proposed recording. Unfortunately, those stations that may be abusing their priveleges, can afford to buy the equipment and hire the personnel and lawyers they need. This goes for the new EEO rules too. Mini market stations like ours, do not come from areas that have the huge retail sales to support the advertising sales needed to be a money machine like the "big boys". It would definately be a burden to our stations to have to record everything we air. Please find another way to police "The Big Boys".  
Thanks.

Roger J. Jacobson
